The Committee also had a detailed discussion with the Vice Chancellor and Registrar of the University about various issues related to the university. On the basis of these discussions which the members of the committee had and the documents with the members of the committee perused the committee would like to make the following observations and assessments of the performance of the university during the 10th Plan Period.

A. Infrastructural Facilities

The university was established in the year 1966 and during the period of 10th Five Year Plan, it has made commendable progress with regard to development of infrastructural facilities (buildings). During the 10th Five Year Plan, the university undertook construction work of various buildings for departments including the library building, multipurpose hall complex, guest house, International Centre, boys and girls hostels, Bank, Health Centre etc.

B. Campus Development

During the period under review , the university has developed its campus. The development is quite impressive. There is a network of well constructed roads and plentiful plantations and landscaping all around the campus. The layout of the garden also deserves a word of appreciation. Every road has entry and exit gates too for security purposes.

C. Equipment

The University office and offices of the centres, departments etc. are very well furnished. Most of the departments and centres have computers softwares and other instruments. Student amenities, such as the provision for drinking water and sanitation is made in almost all the buildings. Internet facility through various outlets located in the library, computer centre and elsewhere also is made available free of cost to the students and the faculty members.

D. Academic Activities

From the documents presented to the Committee and through the narrations of university authorities and faculty members, it was revealed that the university has been academically quite active and vibrant. During the Plan Period the university introduced e-governance in the following administrative branches :

1. Admissions
2. Data on Students
3. Examination
4. Counselling Programmes
5. Academic Tasks such as BOS, Academic Council, Syndicate, Senate,

In brief, it can be said without any fear of contradiction that the academic achievement of university definitely command appreciation from every body.

E. Automation in Finance Department of the University

The university has Internal Network (LAN) for all computer work stations. The buildings are further network through WAN which has helped the departments in easy Internet Access.

The University is interlinked with the UGC INFONET Programme having 256 kbps ERNET bandwidth. It is a boon for the university in implementation of various programmes relating to teaching, learning, research and development. It has provided the university access to over 4000 full text on-line journals from 25 publishers across the globe as well as several thousand open access journals.

Despite these achievements, there are some gaps which are quite visible. They can be enumerated as follows :

1. It was noted during the interaction with students that there is need to strengthen further the library facilities available to them in terms of purchasing additional titles and their multiple copies for the new courses and new programmes. Book Bank need special attention for purchase of books and infrastructure.
2. It was revealed during the discussion with the students that the canteen facility available in the campus is both inadequate and expensive. It was
