4. Available of eminent academicians on the panel of experts to guide and advise them from time to time.

There are some Industrialists and businessmen who have agreed in principle to finance some of the projects.

**OBSERVATIONS OF THE COMMITTEE**

- Nehru Gram Bharati proposed deemed University Campus is situated in remote rural area of Uttar Pradesh, about 16 k.m. away from Allahabad at Kotwa-Jamunipur, Dubawal belt. The present campus is spread in a 30 acres of land with few functional buildings and few under construction.

- Rajiv Gandhi Post-Graduate College imparting higher education in traditional streams is the only existing institution that is functional. Other proposed courses are still in facing. Infrastructural facilities are being appropriately developed. Science laboratories are equipped but still need strengthening.
- Library has roughly 11,000 books; only three journals were seen, library up-keep needs much improvement. Record of issue of books is poorly maintained. Systems are not in place and remedial measure are badly required. This if for immediate rectification.
- College office is not functioning as it should be. Personal records of employees are not maintained; accounts are incompletely recorded. College office needs well developed service books & personal files of all employees. Office needs a face-lift with definite job charts to each functionary.
- Office of Principal to become proactive and main executive unit of the organization. At present, it is very weak and ineffective.
- As a future deemed to be University, well-defined and structured examination system should be developed and presented for perusal of the Committee. Committee feels that the visit should have been taken more seriously.

#### **RECOMMENDATIONS OF THE COMMITTEE**

- In spite of all these shortcomings, looking to their vision and commitment to serve rural sector, the Committee recommends grant of Deemed to be University Status under De-Novo category purely on provisional basis for a period of one year.
- It may be extended further only on revalidation of the fact that the suggested shortcomings are nullified. A small visiting Committee may be sent to revalidate the facts before extending the tenure of Deemed to be University status beyond one year otherwise it will stand as withdrawn.
- Above recommendation may be sent to the Institute for compliance within one year and to approach UGC again for revalidation of fact.

**THE POINTS UNDER CONSIDERATION**

- The institute is running only one College i.e. Rajiv Gandhi PG College is in existence and this college is running traditional courses (B. A., B. Com, B. Sc., M.A., MSW, M.Ed. etc) only.
- The Committee examined the infrastructure and academic activities of the above college. But the Institute is planning to start various professional courses in the future. It is not clear how the institute will run the professional courses like MBBS, MD, Paramedical, Engineering and Technology etc. after getting the Deemed University status without proper infrastructure.
- The NOC from State Government enclosed with the report cannot be considered, as it is only a letter addressed by Governor UP to Minister for Rural Area and Employment, Government of India for opening of Nehru Gramin Bharti Open University.
- Certificate from the affiliating University to the effect that the student presently enrolled with the University will continue in the University till they pass out, has not been received.
- The Institute has submitted only an affidavit with regard to the transfer of movable and immovable property to the proposed Deemed University after getting deemed university status. As per the provisions in the guidelines of the scheme, the movable and immovable assets should legally vest in the name of the institution seeking recognition as a deemed to be university.
- The Committee has recommended for deemed University status to the Institute under de – novo category. The provisions under the guidelines of the scheme are as under :-

Clause 4 (b)

“Ordinarily, institutions affiliated to universities and which are offering only conventional degree programmes leading to B.A./ B.Com./ B.Sc., or M.A/M.Com./ M.Sc., will not be considered for grant of deemed to be university status. However, such institution which is also offering **innovative programmes, and which has adequate resources** might be considered for recognition as a university. Supplementary assistance for innovation may be considered by the UGC only in such exceptional cases”.

Clause 16

“De – novo institutions in the **emerging areas with the promise of excellence**, not yet fulfilling the prescribed guidelines of the UGC, may be inspected by a committee of the UGC for recommending to the Government of India for granting them provisional status of deemed to be university, subject to its confirmation after five years on the basis of performance report of the UGC review committee done annually **for a five years period.**”

But the expert committee report is silent in its recommendations and observations about **emerging area with promise of excellence** which is the main criteria for a institution to be declared as deemed to be university under de-novo category.

The Committee has recommended Deemed University status to the institution under de – novo category on the provisional basis for a period of one year only which is again contrary to the provision in the guidelines as quoted above. The future of the students will be in Jeopardy if Deemed University status is withdrawn after one year.

The report of the Committee is placed as **Annexure (P.234-413)**

The Commission may consider the issue in view of the provisions in the guidelines of the scheme and points raised above.

**PREVIOUS DECISION OF THE COMMISSION**

The Commission, in the past, has been considering the recommendations of the expert committee.

The matter is placed before the Commission for consideration.

**IV OBSERVATIONS OF THE COMMITTEE**

- Nehru Gram Bharati proposed deemed University Campus is situated in remote rural area of Uttar Pradesh, about 16 k.m. away from Allahabad at Kotwa-Jamunipur, Dubawal belt. The present campus is spread in a 30 acres of land with few functional buildings and few under construction.
- Rajiv Gandhi Post-Graduate College imparting higher education in traditional streams is the only existing intuition that is functional. Other proposed courses are still in facing. Infrastructural facilities are being appropriately developed. Science laboratories are equipped but still need strengthening.
- Library has roughly 11,000 books; only three journals were seen, library up- keep needs much improvement. Record of issue of books is poorly maintained. Systems are not in place and remedial measure are badly required. This if for immediate rectification.

poorly maintained. Systems are not in place and remedial measure are badly required. This if for immediate rectification.

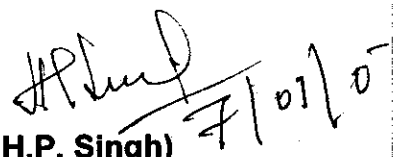

- College office is not functioning as it should be. Personal records of employees are not maintained; accounts are incompletely recorded. College office needs well developed service books & personal files of all employees. Office needs a face-lift with definite job charts to each functionary.
- Office of Principal to become proactive and main executive unit of the organization. At present, it is very weak and ineffective.
- As a future deemed to be University, well-defined and structured examination system should be developed and presented for perusal of the Committee. Committee feels that the visit should have been taken more seriously.

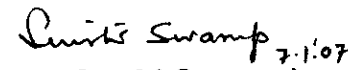

**V RECOMMENDATIONS OF THE COMMITTEE**  
**(If recommended, please give justifications)**  
**(If, not recommended, reasons thereof)**

- In spite of all these shortcomings, looking to their vision and commitment to serve rural sector, the Committee recommends grant of Deemed to be University Status under De-Novo category purely on provisional basis for a period of one year.
- It may be extended further only on revalidation of the fact that the suggested shortcomings are nullified. A small visiting Committee may be sent to revalidate the facts before extending the tenure of Deemed to be University status beyond one year otherwise it will stand as withdrawn.
- Above recommendation may be sent to the Institute for compliance within one year and to approach UGC again for revalidation of fact.
