UNIVERSITY GRANTS COMMISSION
BAHADUR SHAH ZAFAR MARG
NEW DELHI - 110 002

REPORT OF THE UGC EXPERT COMMITTEE WHICH VISITED SRI BHAGAWAN MAHAVEER JAIN EDUCATIONAL AND CULTURAL TRUST, BANGALORE, KARNATAKA, ON 29TH & 30TH APRIL 2008 TO ASSESS ITS PROPOSAL FOR CONFERMENT OF DEEMED TO BE UNIVERSITY STATUS IN THE NAME AND STYLE OF PROPOSED JAIN UNIVERSITY UNDER SECTION 3 OF THE UGC ACT, 1956.

Based on the proposal of Sri Bhagawan Mahaveer Jain College, Bangalore forwarded by Ministry of Human Resource Development, Government of India to UGC to examine for the conferment of Deemed to be University Status under section 3 of the UGC Act, 1956.

I. Background of the Institution giving details of teaching, research and extension programme

Sri Bhagawan Mahaveer Jain College is backed by strong and committed members of the Sri Bhagawan Mahaveer Jain Educational and Cultural Trust (SBMJECT). The inspiration behind this noble endeavor has been and still remains the need to provide quality and modern education as in West with strong Indian cultural values. The college owns through its promoting body 300 acres of land in the outskirts of the city, extending to a built up area of about 1,95,571.25 SQ. mts

It is a commitment that stems from a need to create a good learning environment and encourage students to continuously engage in further learning not only in their chosen disciplines but also other related fields. Sri Bhagawan Mahaveer Jain College established with the objective of providing quality education and has since built a massive educational edifice in a record time of just over a decade.

Sri Bhagawan Mahaveer Jain College made a beginning in 1990 in its journey of higher education with a view to provide quality education to build and shape the individuals who are relevant to the competitive world.

Sri Bhagawan Mahaveer Jain College is the youngest college accredited and reaccredited by NAAC is one of the leading colleges imparting education both at the Undergraduate and Post Graduate levels. The institution is involved in various innovative programmes apart from teaching regular University curriculum. These programmes are carefully designed to provide students a clear edge in placement or further education. The regular University courses are supported by industry enabled, employment certified programs in various oriented specialized fields. The college has excelled in all disciplines, curricular, extracurricular and co-curricular activities.

Sri Bhagawan Mahaveer Jain College has made rapid progress and growth since its inception by introducing innovative and professional courses in Science, Computer Applications, Commerce and Management and Engineering etc. The institution has well-organized and meaningful extension programs carried through their various departments like the human networking academy which conducts extraordinary practices namely Vishvachaitanya and Vishvacharana by distinguished and trained members of the faculty. The Community and National development is addressed through the N.S.S, N.C.C and Rotaract Club programs of the college. Entrepreneurship program is offered to the students. A separate division has been opened for fostering and implementing this program successfully. The Counseling Cell of the college guides the students in academic improvement to cope with the peer group pressure, personal problems to understand themselves better and clear direction to plan their career and personal ambitions.

Sri Bhagawan Mahaveer Jain College is affiliated to Bangalore University and the engineering College is affiliated to Visvesvaraya Technological University. It also has collaborations with many accredited foreign Universities.

The Chairman, UGC constituted the following Expert Committee to make on the spot assessment of the infrastructure and academic facilities to consider its proposal for conferment of Deemed to be University Status.

VII OBSERVATIONS OF THE COMMITTEE

The Committee visited the Jain colleges in the city and the new campus outside the city on 29th and 30th April, 2008. There were a number of presentations by the management, inspection of the facilities and interaction with teaching and non-teaching staff, and students.

The committee found the vision of the management to be excellent, forward looking and in tune with the needs of the emerging India. There is a clear focus on relevance to the economic needs of the country, through collaborations with industry, and incubation of start-up companies. The philosophy is to educate job creators rather than job seekers. The Trust itself is financially self-supporting.

The infrastructure and labs are overall very good, above par compared to similar institutions. Laboratories are well equipped with state of art equipments which are sufficient in numbers. All the labs are associated with reading/writing space equipped with chairs. Most of the equipments have been procured from reputed companies. Latest experiments are being conducted. It is suggested that the laboratory staff is periodically trained to handle their sophisticated equipments. The Library facilities are well used by the students. However, there is a need to increase the number of seminal, fundamental and reference books in all areas. The total collection of titles is small and can be increased several-fold. While there is subscription to a large number of online journals, it is important to have the important journals in print form. The Internet bandwidth of 2 Mbs is inadequate for online reference. Higher dedicated

bandwidth may be made available to a Central Library. The Library facilities in the MBA Department need to be improved substantially.

The Committee examined the qualifications etc. of the faculty. In most of the departments, the faculty were found to be well-motivated. A number of them have PhDs and several of the others are pursuing higher degrees especially Ph.D. There is a need to encourage more research activity, including sponsored projects, industry consultancy, and publication in good journals and conferences. It was noted that good research has been initiated in the Centre for Emerging Technologies and the Centre for PG studies.

As a deemed university, there would be a need to unify the professional and humanities subjects, UG and PG programmes through closer physical proximity, and design of an integrated curriculum.

The management has taken several innovative initiatives. Some of these need to be more carefully detailed out. For example, the proposed degrees in aeronautics, while they are aimed to fill a definite need in the country, are overlapping with one another.

During interaction with students, the Committee found them to be well motivated and articulate. They appear to be getting an education that encourages them to think independently, and become good, productive citizens of India. There is a good ratio of 40:60 for girls:boys in engineering.

The vision of the MBA Department is good but there are a number of shortcomings in reality. The Head and the faculty need to be able to inspire students. They should be sent for faculty improvement programmes in Indian Institutes of Management. They should find a good placement officer and ensure that all the students are meaningfully employed. The Pedagogy should be changed to include the standards followed in IIMs and other Business schools. The BBM programme is much better staffed, equipped and run. The management may consider how to build up the MBA using the strength of BBM programme.
