**12. Please give a brief note on the achievements of the University during X Plan**

The Committee noted that University has made improved achievements in several fields such as introduction of new courses, increase in the number of teaching faculty, research publication, research project undertaken by the faculty, other academic activities, like organization of workshops, seminars, symposiums and conferences, revision of syllabi, resources generation and financial support from other agencies.

**13. Please give a brief note on the areas in which University needs improvement**

- (i) The committee observed that the students enrollment in most of the regular courses in all P.G. Departments is rather low. The University as well as faculty members should take necessary steps in this regards.
- (ii) The University appears to have repeated horizontal academic growth. All concerned university authorities should give due importance in the vertical academic growth in each P.G. Department as well.
- (iii) It is observed that the University has introduced about 27 self financing courses. Although the self financing courses are good revenue sources but it is very much apprehended that this may dilute the regular academic programme of the University particularly at the P.G. Level.
- (iv) The University needs to give due importance in introducing inter disciplinary courses at P.G. Level. accompanied with Cafeteria system of selection of elective courses.
- (v) The University needs implementation of students' assessment mechanism of teachers.
- (vi) The proposed Centre for Counseling, Career Guidance and Placement is the need of the hour and should be established as early as possible.
- (vii) Sports facilities in the Campus need improvement.

**14. Please give future insight: recommended by the Committee for the University**

In the present day world, the quality of knowledge and information is rather expanding phenomenally. Consequent up such changes, institutions of Higher Education must be able to meet the learning needs of a constantly growing and increasing varied students population.
