**Re: Nefarious Activities of A Guyanese  
American In Nigeria**

I am directed to bring to your kind attention, the nefarious activities of a Guyanese American in Nigeria who specializes in duping aspiring medical students in Nigeria by promising and offering them fake medical course admissions in foreign universities through his fake "AMERICAN INTERNATIONAL SCHOOL OF MEDICINE" located in Guyana.

2. The Guyanese American's modus operandi is to get his victims admitted into his fake school of medicine in Guyana to study for 2 years and thereafter transit them to affiliated universities in the United Kingdom, USA and Canada but unfortunately abandon them thereafter after collecting huge sum of money from them.

3. The High Commission would be grateful if the Council could circulate the information to all accredited Indian Universities to be on the look-out for any request that may come from the above stated fake medical school and the Guyanese American.

4. Please accept the High Commissioner's warm regards.
