The University Grants Commission, Bahadur Shah Zafar Marg, New Delhi, India announces an open competition for the “INDO – US 21st Century Knowledge Initiative” and invites proposals for the same strictly in accordance with the guidelines outlined in the Request for Proposals and the Proposals Submission Instructions, which can be accessed from the UGC Website: www.ugc.ac.in.

The proposals may be submitted latest by 15.03.2013 to Dr. Upamanyu Basu, Financial Advisor, University Grants Commission, Bahadur Shah Zafar Marg, New Delhi – 1100 02, at ubasu.edu@nic.in/ ubasu100@hotmail.com (institutions which have already applied need not apply).

Secretary
OBAMA-SINGH 21ST CENTURY KNOWLEDGE INITIATIVE (OSI)

Request for Proposal

Introduction

The University Grants Commission, Bahadur Shah Zafar Marg, New Delhi-110 002, India, announces an open competition for the “Obama-Singh 21st Century Knowledge Initiative (OSI)”. The OSI, which is a joint initiative of Indo-US Government, aims and focuses on the formation of higher education partnerships between US Institutions and Institutions of Higher Learning in India. The said joint initiative also aims at the development and enrichment of junior faculty at Indian Institutions of Higher Learning. The Indian Institutions recognized u/s 2(f) and 12B of UGC Act, 1956 and Institutions of National Importance may submit their proposals with a view to encourage mutually understanding and economic development through education cooperation in the field of Higher Learning. The last date for the receipt of proposals is 20th January, 2013. (date extended up to 15.03.2013)

Program Overview

To encourage mutual understanding educational reform and economic development the OSI enables Indian Higher Education Institutions to pursue objectives through exchange visits of faculty, administrators, post graduate Indian students, and US graduate students who can demonstrate the ability to work independently.

Project Design

The project should be designed to focus on specific institutional objectives that will support the program’s goals of encouraging mutual understanding, educational reform and economic development. The design should include a series of exchange visits and activities that will lead to the achievement of the project’s objectives within a three-year period, and should describe a process for evaluating the results of project implementation. The design should also provide for the effective administration of the project.
Statement of Need

To justify a request for support, proposals should demonstrate the need of the participating institutions for the project that they are proposing. The proposals should explain how each participating institution will utilize the project to address both institutions’ needs as well as larger needs of both the countries.

In addition to demonstrating how the applicant institution can assist its partner to meet institutional goals, proposals should also explain how this cooperation will enable the Indian institution to address its own needs. Accordingly, applicants should describe the needs and deficiencies as well as the capabilities and strengths of the Indian institution, and how each institution will contribute to, and benefit from, the achievement of project objectives. The proposals must realistically assess institutional capacities and contain compelling objectives that address institutional needs and justify a request for support. To be competitive, proposals should demonstrate that the participating institutions are committed to mutual support and cooperation in project implementation.

If the proposed partnership would occur within the context of a previous or ongoing project, the proposal should outline distinct objectives and outcomes for the new project and explain how new funding would build upon the previously funded activities. Proposals should describe the amounts and sources of support for the earlier projects as well as the results to date.

Project Objectives

The proposals should explain in detail how the project will enable the participating institutions to achieve specific institutional changes that will support the goals of the OSI. The proposals should outline a series of activities for meeting specific objectives for each participating institution. The benefits of the project to each of the participating institutions may differ significantly in nature and scope based on their respective needs and resource bases.

Project objectives may include the development or revision of courses, curricula, and programs of study at participating institutions to support mutual understanding, educational reform and economic development. Particular areas of interest include Indian junior faculty development programs in respective fields.

The proposals may outline the parameters and possible content of new courses; new teaching specializations or pedagogic methodologies; collaborative research; new or revised curricula; and new programs for outreach to educators, professional groups, or the general public. Proposals may also describe strategies to promote administrative reform through faculty or staff development.
In most cases a limited number of related thematic objectives at each institution will be more feasible to achieve than a larger number of unrelated objectives.

The following fields are eligible:

- Energy Studies
- Sustainable Development
- Climate Change
- Environmental Studies
- Education and Educational Reform
- Community Development and Innovation

Exchange Activities and Project Implementation

The proposal should demonstrate that a project’s objectives are feasible to achieve within a three-year period through a series of exchange activities that take into account prevailing conditions in India and United States. The exchange activities may include but are not limited to conferences, symposia, seminars, workshops, team teaching, focused series of exchanges, among other activities. Activities should be designed to develop expertise, advance scholarship and teaching, and promote reliable, long-term communication between partner institutions.

For example, projects focusing on curricular reform should describe the existing curriculum and the courses targeted for revision, and should explain how exchange activities will result in the restructuring of the current content to incorporate the new academic themes. The proposal should describe the topics and content of any new courses or educational materials that will be developed and introduced, and should identify those persons who will be responsible for developing the new courses and for teaching them.

If the project proposes to develop a new degree or certificate program, the proposal should outline the steps being taken to secure approval for the new program from the institution itself and from all relevant educational authorities. The proposal should also describe the composition and size of the student and faculty population and any other group that will benefit from the innovations to be introduced through the project.

Except for translators, interpreters, and outside evaluators, participation in the exchange visits is limited to teaching faculty, researchers, Indian post-graduate students, US post-graduate students, and administrators from the participating institution(s). Post-graduate students are eligible to participate in exchange visits if they have teaching or research responsibilities or are preparing for such responsibilities.

The grant recipient is responsible for providing invitation letters for US participants applying for Indian Study Visa.
Material and Technical Support for Exchange Activities

To increase the feasibility and impact of the project’s exchange activities, a proposal may include a request for funding for educational materials (including books and periodical subscriptions) and technical components (including the establishment or maintenance of Internet and/or electronic mail facilities and of interactive technology-based distance-learning programs). The funding requested for educational materials and technical components should supplement the project’s exchange activities by reinforcing their impact on project objectives. Applicants may propose other project components not specifically mentioned in this solicitation document if the activities will increase the impact on project objectives.

Project Duration

Pending the availability of funds, selected grant recipients are expected enter into grant status before August 31, 2012. Grant activities are expected to be completed within the three-year timeframe.

Project Evaluation

The proposals should describe and budget a methodology for project evaluation. Institutions that are awarded partnership grants must formally submit periodic reports to UGC on the project’s activities in relation to its objectives. The formal evaluation reports should include an assessment of the current status of each participating institution’s needs at the time of program inception with specific reference to project objectives; formative evaluation to allow for mid-course revisions in the implementation strategy; and, at the conclusion of the project, summative evaluation of the degree to which the project’s objectives have been achieved. The proposal should discuss how the issues raised throughout the formative evaluation process will be assessed and addressed. The summative evaluation should describe the project’s influence on the participating institutions. The summative evaluation should also include recommendations about how to build upon project achievements. The copies of evaluation reports must be provided to UGC.

In addition to the formally scheduled reports, the evaluation strategy should include a mechanism for promptly providing UGC with information to be able to summarize and illustrate project activities and achievements as they occur.
Project Administration

The proposals should explain how project activities will be administered both in the India and US in ways that will ensure that the project maintains a focus on its objectives while adjusting to changing conditions, assessments and opportunities.

Institutional Commitment

An University/Institution recognized under 2(f) and 12B of UGC Act must submit the proposal and must serve as the grant recipient with responsibility for project coordination. The proposals must include letters of commitment from all institutional partners including the institution submitting the proposal. Each letter must be signed by an official who is authorized to commit institutional resources to the project. The letters of support as well as the proposal as a whole should clearly demonstrate that the participating institutions are committed to mutual support and cooperation in project implementation.

Eligible Institutions

The Universities/Institutions recognized under Section 2 (f) and 12 B of UGC Act are eligible to receive the grant and Institutions of National Importance may submit their proposals with a view to encourage mutually understanding and economic development through education cooperation in the field of Higher Learning.

Costs and Cost-Sharing

The commitment of all partner institutions to the proposed project should be reflected in the cost-sharing which they offer in the context of their respective institutional capacities. Although the contributions offered by institutions with relatively few resources may be less than those offered by applicants with greater resources, all participating institutions should identify appropriate contributions. The proposed cost-sharing will be considered an important indicator of the applicant institution’s commitment to the project.

OSI support may be used to assist with the costs of the exchange visits as well as the costs of the administration of the project by the Indian grantee institution. Administrative costs that may be covered by the OSI, with certain limitations, include administrative salaries, faculty replacement costs, other direct administrative costs and indirect costs. The cost of administering the project at the Indian partner organization(s) is also eligible for OSI support. Although each grant will be awarded to a single Indian institutional partner, the proposal should make adequate provision for the administrative costs of all partner institutions, including the US partner(s).
The maximum award in the FY 2011 competition will be Rs.25.00 crores for a three-year period. The requests for amounts smaller than the maximum are eligible. Budgets and budget notes should carefully justify the amounts requested.

**Diversity, Freedom and Democracy Guidelines**

The programs must maintain a non-political character and should be balanced and representative of the diversity of American and Indian political, social and cultural life. “Diversity” should be interpreted in the broadest sense and encompass differences including, but not limited to ethnicity, race, gender, sexual orientation, caste, religion, geographic location, socio-economic status and physical challenges. Applicants are strongly encouraged to adhere to the advancement of this principle both in program administration and in program content. The programme will include institutions and individuals representing geographic diversity, diverse students’ population and those oriented towards service to their local communities.

**Review Process**

UGC will acknowledge receipt of all proposals and will review them for technical eligibility. All eligible proposals will be evaluated by independent external reviewers, who will be professional, scholarly, or educational experts with appropriate regional and thematic knowledge. The proposals will be deemed ineligible if they do not fully adhere to the guidelines stated herein.

**Review Criteria**

All reviewers will use the criteria below to reach funding recommendations and decisions. Technically eligible applications will be reviewed competitively according to these criteria, which are not rank-ordered or weighted.

1. **Broad and Enduring Significance of Institutional Objectives:** Project objectives should have significant and ongoing impact on the participating institutions and foster a deepened understanding of critical issues in one or more of the eligible fields. Special consideration will be given to proposals which include Indian junior faculty development as a component of the grant activity.
(2) **Feasibility and Effectiveness of Strategy to Achieve Project Objectives:**
Strategies to achieve project objectives should be feasible and realistic within the projected budget and timeframe. Proposals should contain detailed information on specific exchange activities and outline the methodology and timeframe for achieving project goals.

(3) **Institutional Commitment to Cooperation:** The proposals should demonstrate significant understanding by each institution of its own needs and capacities and of the needs and capacities of its proposed partner(s), together with a strong commitment by the partner institutions, during and after the period of grant activity, to cooperate with one another in the mutual pursuit of institutional objectives.

(4) **Project Evaluation:** The proposals should describe a methodology for determining the degree to which a project meets its objectives, both while the project is underway and at its conclusion. The final project evaluation should provide observations about the project’s influence within the participating institutions as well as their surrounding communities or societies.

(5) **Cost-effectiveness:** Administrative and program costs should be reasonable and appropriate with cost-sharing provided by all participating institutions within the context of their respective capacities. Cost-sharing is viewed as a reflection of institutional commitment to the project. Contributions should not be limited to indirect costs.

(6) **Support of Diversity:** Proposals should demonstrate substantive support of diversity by explaining how issues of diversity are included in project objectives for all institutional partners. Issues resulting from differences of race, ethnicity, gender, sexual orientation, caste, religion, geography, socio-economic status, or physical challenge should be addressed during project implementation. In addition, project participants and administrators should reflect the diversity within the societies, which they represent. Proposals should also discuss how the various institutional partners approach diversity issues.
Release of Funds and Settlement of Accounts

The University Grants Commission would provide the funding to the selected institutions under this programme in installments and the awardee institutions will be under obligation to submit an audited Utilization Certificate for the previous grant which will facilitate the Commission to sanction/release subsequent admissible grants.

It is mandatory on the part of the awardee institution to submit item-wise, year-wise audited Statement of Expenditure along with the Utilization Certificate for settlement of the grants sanctioned by the UGC.

Number and Amount of Grants

There is no predetermined number and amount of grants to be provided and the decision of reviewers/Commission in this regard shall be final and binding.
This document supplements the guidelines outlined in the Request for Proposals (RFP) for the Obama Singh 21st Century Knowledge Initiative, the primary document outlining the terms of the 2011 competition for this program. The review criteria outlined in RFP are the basis on which proposals are selected for funding. Proposals must conform to the RFP and the guidelines stated in this document.

Applications not adhering to the conditions set forth in these documents will be deemed technically ineligible and will be excluded from further consideration.

Additional information/compliance forms may be requested during the course of the application period and if selected, during the course of the grant period.

During the proposal development process, prospective applicants should contact Dr. Renu Batra, Joint Secretary, University Grants Commission, Bahadurshah Zafar Marg, New Delhi-110002 at renu@ugc.ac.in).

**I. STATEMENT OF ACTIVITIES**

Partner institutions may pursue the program’s goals of promoting mutual understanding, facilitating educational reform, fostering economic development through carefully defined institutional objectives. Activities should be planned strategically to achieve project objectives and program goals through exchanges of teachers, administrators and/or, in limited circumstances, graduate students. The proposals should explain how individual participants will contribute to the achievement of project objectives and OSI goals. If participants are yet to be identified or if additional personnel will be added at a later date, the proposal narrative should describe the procedures and criteria for doing so. The Indian partner should participate actively in the selection of US participants whether they are identified in the proposal or selected during the course of project. All participants should be selected because of their demonstrable qualifications to contribute to overall project goals.
The strategy for achieving project objectives will typically include exchange visits in both directions, but no single formula is prescribed for the duration, sequence, or number of these visits. Although strong budgetary and programmatic emphasis may be given to visits in one direction over another, the benefits of all these visits to the sending as well as the receiving sides should be clearly explained. Exchange visits for the purpose of attending conferences are not allowed except in combination with other grant activities and in support of specific educational objectives at one or more of the participating institutions.

II. PROGRAM SPECIFIC GUIDELINES

The most competitive proposal supports mutual goals and benefits for all partner institutions. While the goals and benefits should be mutual, they do not need to be identical for each partner institution or precisely balanced among partner institutions. The recipient and any sub-recipient must, in addition to the assurances and certifications made as part of the award, comply with all applicable terms and conditions during the project period.

VISA REQUIREMENTS

The Grantee Institution should take into account the US visa requirements for U.S. participant travel to India for grant related activities.

For US participants, the Grantee Institution must secure and properly administer the Exchange Visitor Program. Proposals should demonstrate the applicant’s capacity to meet all requirements governing the administration of Exchange Visitor Programs as set forth in 22 CFR 62, including the oversight of Responsible Officers and Alternate Responsible Officers, screening and selection of program participants, provision of pre-arrival information and orientation to participants, monitoring of participants, proper maintenance and security of forms, record-keeping, reporting and other requirements.

TRAVEL

The lead Indian institution is responsible for all international travel arrangements using Indian carriers.

DIVERSITY, FREEDOM AND DEMOCRACY GUIDELINES

In the development of these programs, the Obama – Singh Initiative wishes to encourage participation by a broad base of institutions in both countries and seeks institutions that represent geographic diversity, serving diverse student populations, and oriented towards service to their local communities. Programs must maintain a non-political character and should be balanced and representative of the diversity of Indian political, social, and cultural life. “Diversity” should be interpreted in the broadest sense and encompass differences including but not limited to ethnicity, race, gender, sexual orientation, caste, religion, geographic location, social-economic status, and disabilities. Applicants are strongly encouraged to adhere to the advancement of this principle both in program administration and in program content. Suggested elements could include:
Program Administration:

- Selection of the Indian and US program participants should reflect all relevant forms of diversity (ethnicity, gender, geographic regions, etc.) to the extent possible;
- Program locations should reflect geographic diversity and, where relevant, socio-economic diversity;
- Program evaluation should incorporate an examination of the program from a variety of perspectives, including the establishment of diversity criteria and how the program meets these criteria/goals.

Program Content:

- Orientation should include a session on multi-ethnicity and multi-culturalism for all exchange participants;
- In seminars, workshops, meetings and other forms of interaction, relevant diversity issues should be addressed either directly (as a topic) or indirectly (through contact with individuals of diverse backgrounds);
- Resource lists and research material should contain a broad representation of subjects, authors and titles reflecting diversity in the U.S. and India; Program follow-up should ensure mechanisms for the continual promotion of diversity issues.

HEALTH INSURANCE

All exchange participants should carry health and accident insurance including all Visitor visa holders. At a minimum, insurance must provide the following benefits:

1. medical coverage of at least Rs. 25,00,000/- per person per accident or illness;
2. repatriation of remains in the amount of Rs. 3,75,000/-
3. medical evacuation benefits of at least Rs. 5,00,000/-; and
4. a qualified insurance program shall not have a deductible that exceeds Rs.25,000/-

The applicant should budget (under program costs per participant) for insurance. It is expected that participants will be provided with insurance for those periods of actual participation in exchange activities. The period of coverage does not necessarily coincide with the duration of the funded project.

III. FORMAT

The proposal must meet the following formatting requirements:

1. Provide double-spaced, single-sided Executive Summary and Proposal Narrative;
2. Margins: top inch, bottom 1 inch, left 1 ½ inch, right 1 inch;
3. 12-point type font;
4. Provide proposal budget per the instructions further below;
5. Number all pages, including budget and addenda;
6. Microsoft Word readable format and Microsoft Excel readable format for budget documents. It is recommended that applicants merge/consolidate as many of the files as possible into a single Microsoft Word or Adobe Acrobat file.
7. Ensure that all pages are numbered, including proposal narrative, budget and addenda.
The original proposal and one copy should be arranged in the following order:

**Table of Contents (List all attachments)**

**TAB A** Proposal Cover Letter

**TAB B** Executive Summary (One page), Participants Statistics Page, and Resumes for the U.S. and Indian project directors only.

**TAB C** Narrative (Not to exceed twenty pages) and calendar of activities/itinerary, if applicable

**TAB D** Budget Submission

**TAB E** Resumes and CVs (Project staff; not to exceed two pages each) and Letters of endorsement.
Tab A

A proposal cover letter addressed to Dr. Renu Batra, Joint Secretary, University Grants Commission, Bahadur Shah Zafar Marg, New Delhi – 110002, that includes the following components:

**Application for Obama Singh 21st Century Knowledge Initiative Grant**

**Proposal Cover Letter**

US Participants:
Project Directors’ Resumes (attach each U.S. and Indian project director’s resumes to the proposal title page – other participant resumes will be placed under Tab E).
TAB C

1. Narrative
In 20 pages or less, provide a detailed description of project objectives and activities within the parameters outlined in the RFP, and as summarized below.

a. Statement of need together with an outline of project objectives and the anticipated benefits of the project as a whole for each Indian and US participating institution.
b. A detailed description of partnership activities and the relationship between the project activities and program objectives, including:
   - Activity description including when they will occur;
   - Purpose and length of all proposed visits;
   - Names and qualifications of project participants. The project administration staff should be identified and their capacities for handling unexpected personnel or scheduling changes should be discussed;
   - Strategy for working with participants to achieve project goals;
   - Explanation of how courses or other project activities might be configured to achieve project objectives;
   - Explanation of how diversity issues will be addressed in project activities.

c. Description of participating institutions and relevant academic departments/schools and the rationale for their cooperation with one another in pursuit of project objectives.
d. A well-developed program evaluation plan [see the RFP]. The evaluation plan should include:
   - Methodology for assessing the effectiveness of project activities in relation to project objectives;
   - Procedures for ongoing monitoring and corrective action for each institution and the project as a whole;
   - Sample evaluation instruments or indicators;
   - Mid term financial reports.

f. Plan to sustain program achievements without additional OSI support.

2. Calendar of Activities
Following the project narrative, please summarize all exchange visits and other key events chronologically in a Calendar of Activities that covers the entire award period. Describe who will travel when, where, for what purpose, and for how long. Be realistic in estimating the amount of time required for US participants to obtain Indian visas. Describe how project activities and the project timeline relate to the implementation of project objectives and how project objectives will be implemented within the grant period.
TAB D

Budget Submission

Applicants must submit a comprehensive budget for the entire program. There must be a summary budget as well as annual budget breakdowns reflecting administrative and program activities. Include budget notes or budget narratives to explain specific items and how the amounts were derived.

The budget format should include a summary budget, separated into program and administrative sections that are consistent with the distinctions between administrative and program expenses shown in the sample budget provided in this document.

The budget format is provided as sample guideline and should be modified as needed.

1. Allowable costs under this competition:
   a. International, economy-class airfare for participants, who must comply with the eligibility requirements of the RFP. Grant recipients must arrange all travel through national travel carrier.

   b. Domestic, economy-class travel to undertake eligible activities within US and within the Indian. Travel and per diem expenses may be included for persons designated as US participants who must visit Indian Consulates for visa interviews.

   c. Local transportation allowances (e.g. car rental) which must be clearly justified in terms of need, length of visit, and cost savings.

   d. Costs of lodging, meals, and incidental expenses may not exceed the published Indian government/UGC per diem allowance rates. Actual costs may be less than the published per diem rates; dormitory accommodations and long-term rental arrangements are encouraged to enable applicants to avoid the costs of hotel accommodations. Moreover, to avoid incurring costs unnecessarily, applicants are encouraged to arrange home stays and to employ other strategies for the donation of lodging, meals, and incidental expenses. Official per diem rates may change during the course of the project.

   e. Educational and technical materials including translation expenses and the cost of setting up and/or maintaining electronic communications such as Internet and e-mail services at the US partner institution, including computer hardware, software, and computer lab fees. Requests for reimbursements for educational materials and electronic communications equipment should be kept to a minimum so that other direct project elements can be funded. Organizations should rent equipment if feasible. Prior approval from UGC is required for all equipment purchases.

   f. Faculty development stipends may be provided for course development, research, and basic training in computer use for Indian teachers or researchers at Indian institutions with limited resources. Stipends of up to Rs. 25,000/- per semester (in addition to regular salaries paid by the US institution) may be awarded to such US teachers and researchers at their home
institutions for support in developing or revising courses or in conducting research in cooperation with Indian participants. Stipends should be associated with specific activities or objectives beyond the individual’s normal duties and work hours at the Indian institution. An individual participant may receive up to three stipends over the course of the grant. These payments will be subject to taxation laws and the individual will be responsible for managing their taxes.

**g.** Stipends for an individual(s) at the US partner institution responsible for coordinating planning and logistical aspects of the partnership program. Stipends should be associated with activities beyond the individual’s normal duties at the Indian institution. Stipend amounts should be consistent with local economic conditions and would not typically exceed Rs. 20,000/- per month. These payments will be subject to taxation laws and the individual will be responsible for managing their taxes.

**h.** Interpretation fees. This category would not typically exceed five percent of the grant budget.

**i.** Visitor visa fees for US participants and J-1 visa fees for Indian participants.

**j.** A maximum daily fee of Rs. 15,000/- is allowable to compensate an external consultant reporting on the degree to which project objectives have been achieved. Travel and per diem costs for an external reviewer are also allowable. The amount requested for external consultant reporting should not exceed five percent of the total amount of project funding, and may be lower. These payments will be subject to taxation laws and the individual will be responsible for managing their taxes.

**k.** Health insurance for US participants, and if necessary, for Indian participants who have no other applicable health insurance. Please note: Health insurance is compulsory for all U.S. and Indian participants.

**Please note: Health insurance is compulsory for all US and Indian participants.**

**l.** Direct administrative costs, including faculty replacement costs, stipends for advanced Indian graduate students assigned to US institutions, and expenditures for administrative salaries, communications, and supplies. Please note that salary support can be paid only to employees of the grantee organization and to employees of subgrantees; faculty or administrators of the Indian partner organization may be eligible for stipends as described in section Tab D, Section 1 (f) and (g). The following restrictions apply:

1) Indian participant replacement costs may be charged to OSI to pay:

   (a) Salary replacement costs. This category covers the salary and benefits costs of hiring temporary instructors to teach courses which would otherwise be taught by an Indian faculty member temporarily teaching or consulting at the Indian partner university for a period of two or more consecutive months.

   (b) Stipends for Indian graduate students assigned to US institutions for two or more months if the participants would otherwise be eligible for teaching or research appointments at the Indian institution.

2) Other direct administrative expenditures may not exceed 20 percent of the total budget.
m. The Obama Singh Initiative will pay for limited indirect costs to the Indian grantee institution, not to exceed 8 percent of the total grant request. Additional indirect costs may be included as part of an institution's cost sharing. The indirect cost must be restricted to 5 or 6% of the total grant request.

2. Unallowable costs under this competition:
   a. Tuition expenses, salary, honorarium, or stipend expenses except as explicitly allowed under Tab D 1 (f), 1 (g), 1(i), and 1 (l).

   b. Expenses for US students with the exception of those who are preparing for instructional positions.

   c. Salary support for Indian and US government employees (unless they are employed by a participating college or university).

   d. Travel and expenses for lodging, meals, or incidental costs of the dependents of program participants or administrators.

   e. Exchange visits for the purpose of attending conferences except in combination with visits to support specific educational objectives at one or more of the participating institutions.

   f. Visits whose primary purpose is to plan activities that would take place outside the scope of the project.

3. Budget Format

All proposed expenditures should be listed individually in whole Indian rupees. Each request for travel should specify round-trip, economy airfare and destination for each participant. Salary expenses for administrative duties should be pro-rated for the number of days, hours, or percentage of time devoted to project activities. For travel and lodging, food, or incidentals, list locality (city), names, rates per day, and total number of days (e.g., 2 X Rs. 7500/- day x 2 days). Include budget notes or budget narrative to explain specific line items and how the amounts were derived.

Other Contributions* cost share only

**TOTALS**

YEARS 2 AND 3: REPEAT SAME FORMULA

*Includes contributions for which funds are not exchanged.
TAB E

1. Resumes and CVs

Resumes of all participants (other than project directors) identified in the proposal together with the resumes of external evaluators, should be included under Tab E. (Project Director resumes are placed under Tab B.) No resume should exceed two single-spaced, single-sided pages. The Indian partner is encouraged to work with US project participants in developing and editing their resumes to meet Indian standards for format and content.

Resumes must include relevant overseas experience and levels of relevant language ability.

2. Letters of endorsement

A signed letter of endorsement must be submitted from each participating institution (Indian and US) from an official authorized to commit institutional resources to the project. These letters must be included with the proposal by the proposal deadline. The letter of endorsement should provide detailed information on the level of support that the participating institutions expect to provide during the project implementation and the institutional need for the project.

APPLICATION SUBMISSION

As indicated in the RFP, two copies of the full application must be postmarked by 20.01.2013 and couriered (Fed Ex, DHL, etc.) to:

Dr. Renu Batra  
Joint Secretary,  
University Grants Commission  
Bahadur Shah Zafar Marg
