XII Plan Guidelines for the Scheme of Construction of Women’s Hostel in Universities (2012-17)

1 INTRODUCTION

1.1 Increasing mobility of students to seek the education they desire raises the demand for hostels. Hostel as a residential unit can foster community living, provide security, especially for women students, who cannot live alone, or even in small groups, in unfamiliar cities. There is a great dearth of women hostels not only in the institutions exclusively serving women, but also in some of the established, old co-educational institutions of the country, which, in the earlier decades, largely catered to men students when there was little mobility for women to seek education in places other than their own residential locations. Today, women are competing with men and, in many cases, crowding them out in both professional programmes as also in the traditional disciplines. While women today constitute one-third of total enrolment, their enrolment is growing at a faster rate in several states of the country. However, there has not been a proportionate growth of women’s hostel facilities for pursuing higher studies.

1.2 With a view to providing hostels and other infrastructure facilities to achieve the goal of enhancing the status of women and harnessing the potential available for the development of the society at large, as also to bring about gender equity and equal representation of women. The Commission has decided to continue the scheme for the Construction of Women’s Hostel during the XII Plan Period. During XI Plan Period the scheme for the construction of women’s hostel was a part of Merged Schemes. Now during the XII Plan Period construction of women’s hostel will be implemented in all Universities and continued as a separate scheme.

Besides this all Institutions Deemed to be Universities receiving plan assistance from UGC are eligible to receive financial assistance under this scheme. However, Universities which have received financial assistance for the construction of women’s hostel in the earlier plan period will be eligible to get the grant during this plan period only on completion of the earlier project.
