University Core Principles are

- Industry-linked
- Technology-based
- Research-driven
- Seamless

Industry-linked

Extensive connectedness with industry is the hallmark of NIIT University because of the focus on building great careers. Minimum six months or a full semester in all programmes is devoted to Industry under Internship and Industry practice programme. Accomplished industry professionals teach a significant proportion of all programmes, and the entire curriculum is regularly updated by an Industry Advisory Board comprising persons from industry and academicians to maximize relevance. Industry-sponsored R & D projects, at all levels, allow students to participate in the latest industry research. Career counselling, interview coaching, grooming soft skills and other placement activities are supported by a dedicated career development team to provide guidance and support to each student’s unique career aspirations.

Technology Based Campus

Campus is 24X7 Wi-Fi.

University has started its ERP, the attendance, marks entry and all aspects the course administration are done through software. Soon ERP window will be started for Parents as well. Synchronous learning technology in every classroom brings students face-to-face with professors and industry leaders across the world. Online software seamlessly integrates administration, teaching and assessment to enable greater convenience, compress cycle-time of administrative processes and reduce paperwork across the learning cycle. An AV Studio transmits lectures from campus and facilitates preparation of professional quality educational material. IT-enabled science labs facilitate computer-assisted learning and campus-wide Gigabit LAN and universal Wi-Fi internet ensure anywhere access. University uses synchronous learning tools to deliver lectures to the students during their internship at various locations to attend the classes by the NU faculty.

By integrating technology in the design and delivery of content, creating a collaborative learning environment and using cutting edge assessment tools, University creates personalized learning environment. Very soon Parents’ window on ERP will also be opened to give them access to their ward’s performance and activities. .

Students are allowed to use internet via NU Wi-Fi on their laptops, as well as on mobile phones to enable 'anytime anywhere learning'.

LMS (Learning Management System)

University has world class teaching learning aids and tools, rich online and offline learning resources and Moodle Learning Management System (NUcleus) along with the most advanced technological features.

University has a full-featured online learning portal, where students can access digital content uploaded by faculty, they can submit online assignments and take online quizzes. Faculty constantly increases the content available to students via the portal, including some select lecture recordings.

Research Driven

Research is one of the core principles of the NIIT University (NU). Research at NIIT University (NU) aims to develop innovative solutions to the world's most daunting challenges by engaging in frontline research at the frontiers of modern technology. At NU research is a way of life for the faculty and students and so policies are in place to motivate as well as to contribute incremental development of knowledge and innovations. University provides financial support to its Faculty as well as Non Academic Staff for presenting paper in one International Conference and two National conferences every year. University incentives faculty by awarding Rs. 50,000/- per paper for a maximum of two papers per year per faculty for getting their Research paper published in peer reviewed refereed journals. A seed grant towards research is also awarded to the Faculty Led research projects. The Dean- Research constantly monitors and motivates faculty to contribute in development of research through paper publication, writing book and applying for Research Projects.

Research is an integral part of the architecture of the academic program of the University even to undergraduates (B Tech). R & D Project and Research Methodology courses, followed by formal thesis submission during the extensive internship of six months enhance the research proficiency of the students. R & D Project and Research Methodology courses are designed for all PG and Ph. D. students respectively. Highly experienced Mentor Professors guide and facilitate students through both academic courses as well as co-curricular activities.

Co-curricular & Extra-curricular activities such as Discovery Circle, Inventors' Club, and Lecture Series by outstanding researchers are a part of life at NIIT University. R & D projects and the inspirational Lecture Series by members of Board of Advisors and eminent persons from academia and industry, as well as the Founding Professors Lecture Series is a regular feature at NIIT University.

In order to strengthen the research orientation of NIIT University and develop it into a hub of innovation, University has Research Advisory Board (RAB) which is constituted by well-known researchers and academics from across the world.

Seamless

Seamlessness is an all-pervasive concept that manifests across NIIT University programme structure, curriculum, academic operations, regulations, teaching-learning strategies, modes of education delivery and external linkages. Each student construct a significant Portion of his/her own curriculum (B.Tech select 23% of their overall course credits and M.Tech 55%), More than 50% of the B.Tech. curriculum comprises lateral integration across a wide variety of knowledge disciplines, including Basic Sciences, Mathematics, Technical Arts, Humanities and Languages, Each student can register for two audit courses in co-curricular activities from- Physical Education, Performing Arts, Community Engagement, Crafts or Languages. Courses like Research Methodology and Contemporary Issues bridge a wide variety of disciplines within one single course. Education delivery is through a rich blend of methodologies including classroom learning, interactive learning and synchronous e-learning.
